

ABOUT US:

With an aim to provide the best cutting edge information security services to its valued clients, Enterprise InfoSec Consultants (EIC) started its journey in 2016. Initially, EIC was engaged with IT Audit and Cyber Security Consultancy services to its clients. In the past few years, EIC has established a strong footprint in ISO standard implementation in different domains and industries. At present, we are the only Bangladeshi company to become SWIFT Cyber Security Service provider and SWIFT CSP Assessment Provider. We provide the following services including certification: SWIFT CSP Audit, SWIFT Vulnerability Assessment & Penetration Testing, Consultancy on Control Implementation for SWIFT.

We are also PCI QSA company, a certifying body for Payment card security compliance validation (PCI DSS Certification). EIC is now not only a trusted name in Bangladesh only, we have clients in the USA and Sri Lanka.

OUR PARTNERS:

"UPSCALING INFORMATION SECURITY INTO INTERNATIONAL LEVEL"

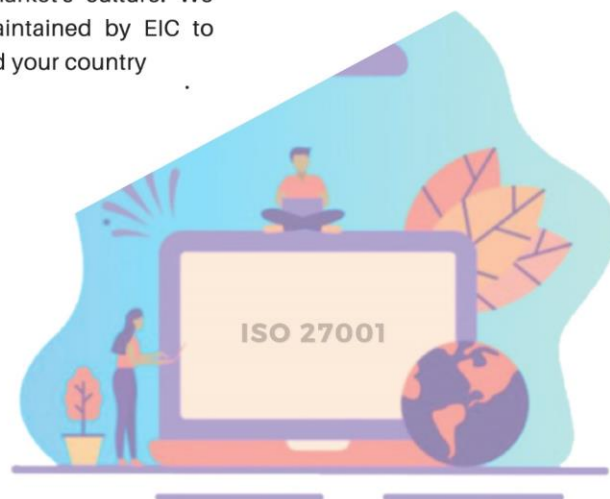

ISO 27001 is a globally recognised and accepted standard for maintaining Information Security Management System (ISMS). We provide a hassle-free compliance service with affordable implementation. Let us help you with implementing the Information Security Management System (ISMS) from scratch to ISO 27001 Compliance certification.

We will help your organization with -

- Effective, practical and simple policies maintaining the standard
- Simplified procedures ensuring the security
- End to end ISO 27001 compliance project management until your organization achieves ISO 27001 compliance certification.

Partnering with EIC for your ISO/IEC 27001 information security certification means better-performing methods, increasingly skillful talent, and more sustainable client relationships with our professionals. ISO 27001 is risk-based and non-prescriptive. With a presence in every region around the globe, our people speak the language and understand your local market's culture. We make sure that your system continually maintained by EIC to deliver the best service for your customers and your country

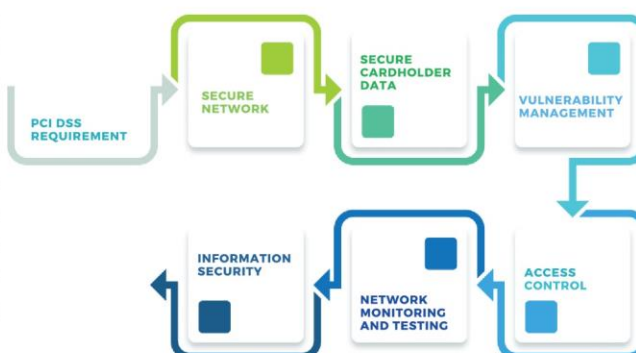

"GET THE HONOUR OF BECOMING PCI DSS COMPLIANT"

The Payment Card Industry Data Security Standard (PCI DSS) defines information security requirements for all organizations that store, process or transmit credit card data. From the world's largest corporations to the smallest store, if you handle debit or credit card data, then PCI DSS requirements apply to you. We are a PCI QSA company that can assist you in achieving PCI DSS compliance and validate/certify your organization's compliance. We provide a hassle-free compliance service with affordable implementation. Our QSA has extensive working experience in Banks, Telecom and Service sector which enables us to better understand your PCI DSS compliance challenges. We will help your organization with -

- Effective, practical and simple policies maintaining the standard
- Simplified procedures ensuring the security
- End to end PCI DSS compliance project management until your organization's PCI DSS Compliance are validated/Certified.

According to the PCI Security Standards, EIC provides a roadmap of compliance activities based on the risk associated with storing, processing, and transmitting cardholder data. The roadmap helps to achieve compliance, establish milestone target controls, lowers the risk of cardholder data breaches sooner in the compliance process and helps acquirers objectively measure PCI DSS compliance activities and risk reduction by merchants, service providers, and others. The Prioritized Approach for PCI DSS compliance was devised after factoring data from actual breaches, and feedback from Qualified Security Assessors, forensic investigators, and the PCI Security Standards Council Board of Advisors.
